WHAT IS TRUE HANDLELESS?

Strikingly modern with a European influence, True Handleless is a real masterpiece of modern kitchen design.

The true handleless design eliminates the need for integrated handles. Instead, an innovative profile system sits behind the door or drawer, allowing space for your fingers to grip the door or drawer itself upon opening.

AVAILABLE ACROSS 3 STYLES

Vivo+ is available in 6 Matt, 6 Gloss and 36 paint-to-order colours.

Stratto is available in 4 Matt colours.

Linear is available in 3 Textured options.

Silver, Rose Gold, Graphite, Brushed Brass, Black

5 RAIL FINISHES AVAILABLE

Create the perfect pairing by complementing or contrasting with your chosen door colour.

VERTICAL RAILS AND WALL UNITS

Tall cabinets, such as appliance housings & larders, are separated by vertical profiles. The doors are designed to line through seamlessly - precision and attention to detail synonymous with luxury kitchen design.

MAKE IT PERSONAL WITH COLOUR CUSTOMISATION

Vivo+ Matt True Handleless is available in our palette of 36 paint-to-order colours or through our Bespoke Colour Match Service, offering endless possibilities for creativity and personalisation.

LIGHTING

Our precise range provides both mood and task lighting and with each product using LED technology, you can relax knowing they're energy efficient.

SOLDAN FLEXIBLE LED STRIP LIGHTING

Flexible strip lighting can be cut to size and is commonly used underneath wall cabinets and worktops, or on plinths to create additional ambience.

STEINA KEA LED

The triangular styling of Kea is a timeless favourite in the UK. Use these underneath wall cabinets to provide additional task lighting.

STEINA DOWNLIGHT LED

The contemporary circular design of the Steina Downlight can be used under wall cabinets or within them to create a display unit.

STEINA FARO LED

Steina Faro lights are typically positioned subtly underneath wall cabinets. Their unobtrusive design is a natural choice in a contemporary kitchen.

STEINA LED TUBE

Tube lighting maximises impact and is easily positioned under wall cabinets. Use a continuous line or around specific areas.

PICKA PLINTH LIGHTS LED

Available in round or square designs.

Add plinth lights to the base of your kitchen units to add subtle ambience to the room. Illuminate your kitchen at night solely with plinth lights to create a ‘show house’ effect. Choose from square and round designs.

KITCHEN DOOR CARE INSTRUCTIONS

CLEANING

We recommend the following door cleaning instructions for all of our doors:

> Clean the doors using only a solution of 95% lukewarm water with no more than 5% soap

> DO NOT spray anything on to your doors - this includes the solution recommended above

> Use a clean damp (not wet) cloth

> Dry with a soft clean cloth. If it is a timber door, run the cloth along the grain direction

> Any cooking marks must be wiped immediately

> Do not allow liquids to seep into joints of doors. Wipe any spillages immediately.

DO NOT use any of the products listed below to clean the door as they may mark and damage the surface:

> Wax furniture polish

> Bleach / chlorine based cleaning products

> Abrasive cleaners

> Solvents

> Multi-purpose cleaners

> Alcohol based cleaners

> Ammonia or any other similar product

> Scouring pads or abrasive cloths

ENVIRONMENTAL INFORMATION

Please be aware, localised or intense heat/steam can damage fascias. Subsequently the use of small appliances such as kettles, toasters etc. in close proximity to your kitchen fascias should be avoided. Doors should not be exposed to extreme temperature changes. Due to their manufacturing process, vinyl doors must not be exposed to temperatures above 70°C as this may cause damage to the door's surface.
